DETAILED ACTION

1. This communication is in response to applicant's terminal disclaimer filed on October 5th 2004.

Allowable Subject Matter

2. Claims 1-33 are allowed.

The following is a statement of reasons for the indication of allowable subject matter:

Regarding claims 1 and 23, the prior arts of record fail to teach or disclose an acoustic telemetry apparatus for transmitting signals from a first location within a well borehole to a second location as claimed in claim 1, which comprises an elongated member having a longitudinal bore, a reaction mass moveably disposed on the elongated member; and an actuator coupled to the elongated member and the reaction mass at the first location within the well borehole, the actuator actuated to induce an axial reciprocating movement of reaction mass relative to the elongated tube, whereby the reciprocating movement causes an acoustic wave to transmit into the elongated member, the acoustic wave being indicative of the signal.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
